Description

The International Distribution Contract is designed to be used where a Supplier grants to a Distributor the right to promote and commercialize merchandise under its own name and on its own account with the intention of re-selling it to end clients or retailers located in an agreed territory.

This contract can be used for the international distribution of different types of products such as food, beverages, consumer goods, industrial supplies, machinery, etc. It can also be edited to be used for other types of distribution, i.e. mass, selective and exclusive.

To ensure a contract that best suits your needs, we have listed a number of options for you to choose from for certain specific aspects of the contract (products and territory, exclusivity, non-competition, prices, delivery and payment conditions, promotional activities, services etc.).

Furthermore, this model of contract includes references to the regulations of the EU and competition rights which influence distribution contracts undertaken in the member countries.

The language of this contract is English. It is also available in [Spanish](#), [French](#) and [German](#).
